

Quadro kanali se odlikujejo po estetskem videzu, enostavni montaži in funkcionalnosti. Omogočajo dober pregled nad položeno instalacijo in hiter poseg v primeru okvare. Namenjena so za nadomestne in naknadne električne, telekomunikacijske, signalne in druge instalacije.

Quadro kanali so izdelani iz trdega PVC-ja ter so odporni proti kemikalijam. Imajo tudi zadovoljivo mehansko in temperaturno odpornost. Sestavljeni so iz spodnjega dela, v katerem so nameščeni vodniki, in zgornjega dela ki služi kot pokrov. Pokrov natakemo ali snamemo ročno, brez orodja.
